

## Quantitative Psychologist (Visiting Assistant Professor)

The Department of Psychology, at The Ohio State University seeks a quantitative psychologist or scholar with related training to join our nationally recognized program in quantitative psychology as a Visiting Assistant Professor of Psychology, commencing Spring semester, January 2021. The Visiting Assistant Professor is expected to contribute to the behavioral science methodology literature as well as have the potential to make significant contributions in other substantive areas (neuroscience, cognitive, clinical, developmental, social and decision psychology, and Intellectual Developmental Disabilities). In addition, the candidate would contribute to the service mission of the quantitative psychology program by teaching required methodology and elective courses at both the graduate and the undergraduate levels. Initial appointment is for one year, with possibility of renewal for up to a total of three years.

Applicants must have earned a Ph.D. in quantitative psychology or a related field. Expertise in quantitative psychology and the ability to teach effectively at the undergraduate level, and ability to teach psychology courses is desired. The successful candidate should be a specialist in one or more of the following: statistical modeling of measurement-related research topics (e.g., factor analysis, structural equation modeling, item response theory), psychometrics and psychological testing (e.g., measurement theories and test construction, reliability and precision of measurement, types of validity, test norming, test and item bias), methods for longitudinal and time-series models (e.g., mixed models, mixture models, and dynamical system models), or Bayesian modeling. Candidates who can also enrich and contribute, through their teaching, to the diversity of our academic community are encouraged to apply.

The Ohio State University campus is located in Columbus, the capital city of Ohio. Columbus is the Midwest's fastest-growing city and the nation's 14<sup>th</sup> largest city. Columbus offers a diverse array of welcoming neighborhoods and a vibrant arts and culture scene. Additional information about all that the Columbus area has to offer is available at <https://visit.osu.edu/experience>.

Prospective candidates should submit a pdf containing a cover letter, curriculum vitae, three letters of reference, and statements on research, teaching, and diversity. The diversity statement should articulate your demonstrated commitments and capacities to contribute to diversity, equity, and inclusion through research, teaching, mentoring, and/or outreach/engagement. Review of applications will begin on November 1, 2020 and will continue until the position is filled. Submit materials and direct inquiries to Paula Cullen, Program & Scheduling Coordinator, at [psych.schedule@osu.edu](mailto:psych.schedule@osu.edu). Appointment is contingent on the university's verification of credentials and other information required by law and/or university policies, including but not limited to a criminal background check.

The Ohio State University is committed to establishing a culturally and intellectually diverse environment, encouraging all members of our learning community to reach their full potential. We are responsive to dual-career families and strongly promote work-life balance to support our community members through a suite of institutionalized policies. The university is an [ADVANCE](#) Institution and member of the Ohio/Western Pennsylvania/West Virginia Higher Education Recruitment Consortium (HERC).

*The Ohio State University is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation or identity, national origin, disability status, or protected veteran status.*
