

## **TENURE-TRACK FACULTY POSITIONS AT THE UNIVERSITY OF HOUSTON:**

The Department of Psychology at the University of Houston anticipates two tenure-track positions beginning Fall 2017. One is at the level of Assistant or Associate Professor and one position is Open Rank. The positions are in the following areas: Clinical Psychology (Clinical Neuropsychology major area of study), and Quantitative Methods. Candidates for both positions should demonstrate a record predictive of future scholarly productivity, potential and commitment to develop a nationally competitive program of research, and the ability to contribute to undergraduate and doctoral programs. The department encourages cross-program and area collaborations and affiliations. Individuals with cross-cutting disciplinary and/or methodological interests are encouraged to apply. Individuals with strong methodological and content area expertise should indicate their interest in being considered for multiple positions.

UH is located in the heart of the nation's fourth largest city, and is one of the most culturally and ethnically diverse public universities in the nation, with over 40,000 students on the main campus. With one of the most diverse student bodies in the nation, UH seeks to recruit and retain a diverse community of scholars. UH is a Tier One research university and is designated as a Hispanic Serving Institution. Nearby is the world's largest medical center, the Texas Medical Center (TMC). UH is a full member of the TMC linked through federal grants, research institutes, faculty appointments, and other academic activities. Rice University, with which we also have long-term connections, is also nearby. We also maintain extensive partnerships with industries, school districts, and NASA in the greater Houston area as well as with other departments and schools at UH, such as the Schools of Pharmacy, Engineering, Optometry, Natural Sciences and Mathematics, or Education. The newly opened Health and Biomedical Science Building on the UH campus provides up-to-date research, clinical, office and teaching space for many faculty. Additional information on the University is available at <http://www.uh.edu> and on the Department of Psychology at <http://www.psychology.uh.edu>.

Review of candidates for each position will begin October 15, 2016 and will continue until the position is filled.

The University of Houston is an Equal Opportunity/Affirmative Action employer. Minorities, women, veterans, and persons with disabilities are encouraged to apply. The University of Houston is responsive to the needs of dual career couples.

**QUANTITATIVE METHODS.** The Department seeks to hire a tenure track (open rank) faculty member in the area of quantitative methods. Candidates should have a record of scholarly productivity and a nationally competitive program of research appropriate to rank, and an interest and ability to contribute to undergraduate and doctoral research and teaching programs. The specific area of quantitative focus is open, but candidates with interests in Bayesian methods, categorical and latent class models, methods for high-dimensional data, machine learning, and/or robust statistics are especially being sought. Applicants should be prepared to participate in the Department's core quantitative undergraduate and graduate instructional curricula. Primary and secondary affiliations are encouraged with the Department's doctoral programs in I/O; Social/Health; Developmental, Cognitive, and Behavioral Neuroscience; and Clinical Psychology (adult, child, and clinical neuropsychology major areas of study), the Texas

Institute for Measurement, Evaluation, and Statistics, and the Center for Advanced Computing and Data Systems, which are university-wide research centers.

Applications may be submitted at <http://jobs.uh.edu/postings/32302> and should include a cover letter describing teaching and research interests, names and email addresses of three writers of letters of recommendation, a current curriculum vita, representative publications, and evidence of excellence in teaching. Upon application submission, referees will be contacted via the online system to submit letters directly, though not for senior applicants. Any questions may be addressed to Dr. David Francis, Quantitative Search Committee Chair, Phone: 832-842-7036, E-mail: [dfrancis@uh.edu](mailto:dfrancis@uh.edu).
