Postdoctoral Position in the Biopsychosocial Health Lab at Wayne State University

We seek a postdoctoral fellow to conduct interdisciplinary research at the intersection of health psychology, social epidemiology, and biology. The fellow will be working under the supervision of Dr. Samuele Zilioli. Dr. Zilioli is the director of the Biopsychosocial Health Lab. The fellow will have the opportunity to analyze and publish data from several existing datasets examining the psychological and biobehavioral mechanisms linking social phenomena to physical health. The fellow will have the opportunity to gain a strong foundation in biobehavioral health research through structured professional development training activities that emphasize transdisciplinary approaches and leadership skills. Candidates should hold a Ph.D. in Psychology, Epidemiology, Neuroscience, or related fields. We are particularly interested in candidates with a record of published research, strong statistical and writing skills, experience working with large datasets, and the ability to work as part of an interdisciplinary team.

The initial appointment will be for one year, renewable for a second year, contingent upon an annual evaluation. The start date for the position is flexible, with the appointment starting as early as Fall 2021. Interested applicants should contact Dr. Samuele Zilioli at fv0808@wayne.edu with a CV and a statement of research interests. Review of applications will begin immediately and will continue until the position is filled. To learn more about the research being conducted at the Biopsychosocial Health Lab, please visit <https://samzilioli.wixsite.com/mysite> or contact Dr. Zilioli (fv0808@wayne.edu).
